

*Patient Information System*

## **Title List Changes/Modifications December 2007**

The number of ExitCare documents has increased by 77 new English titles, 14 new Spanish titles, and 59 new Bosnian titles. ExitCare has begun the addition of a new language translation, "Haitian-Creole" with the first 36 titles appearing in this release. We will continue to add titles to all of our languages. Based on our extensive editorial review guidelines, our documents continue to be reviewed by physicians who are specialists in their fields, by Medical Risk Management experts, and by experts in technical writing to make our documents as medically complete and as easily understood as possible. This process is ongoing and will continue throughout each quarterly release.

### **Modified Titles: (83 Documents)**
